200

PROJECTS DELIVERED

We help bring complex projects to life through thoughtful design, clear documentation, and practical project delivery. By intentionally maintaining a focused workload, every project benefits from Robyn's experience, direct involvement, and responsive communication.

WHAT WE DO

01

Design.

Programming, space planning, material and finish selection, FF&E specification and layout, custom millwork, and lighting design.

02

Documentation.

Permit-ready construction and tenant improvement drawing packages, schedules, and specifications coordinated with applicable code, accessibility, and project standards.

03

Delivery.

Construction administration, consultant coordination and procurement, and owner support through construction, occupancy, and closeout.

WHY SAGE

Principal-Led

Senior-level involvement and responsive communication throughout design, documentation, and construction.

Construction-Literate

Design decisions grounded in constructability, coordination, field conditions, budgets, and project delivery.

Documentation-Focused

Clear, coordinated drawing packages, schedules, specifications, and technical information that support execution.

Collaborative Delivery

Works effectively with owners, architects, engineers, contractors, authorities, housing societies, and specialty consultants.
